```
Payment Methods

Add the following code in the Config file
```
 "payment": [
 {
   "payment_type": [,"Credit Card"]
 }
]
```

The configuration defines payment methods that will be displayed in "Payment Method" DDL on https://qwallity-prod.onrender.com/user_action screen

Profile

Add the following code in the Config file

"profile": [
 {
   "marital_status": true
 },
 {
   "gender": true
 },
]

The configuration defines whether **marital_status** and **gender** ddls will be displayed on https://qwallity-prod.onrender.com/profile screen or not
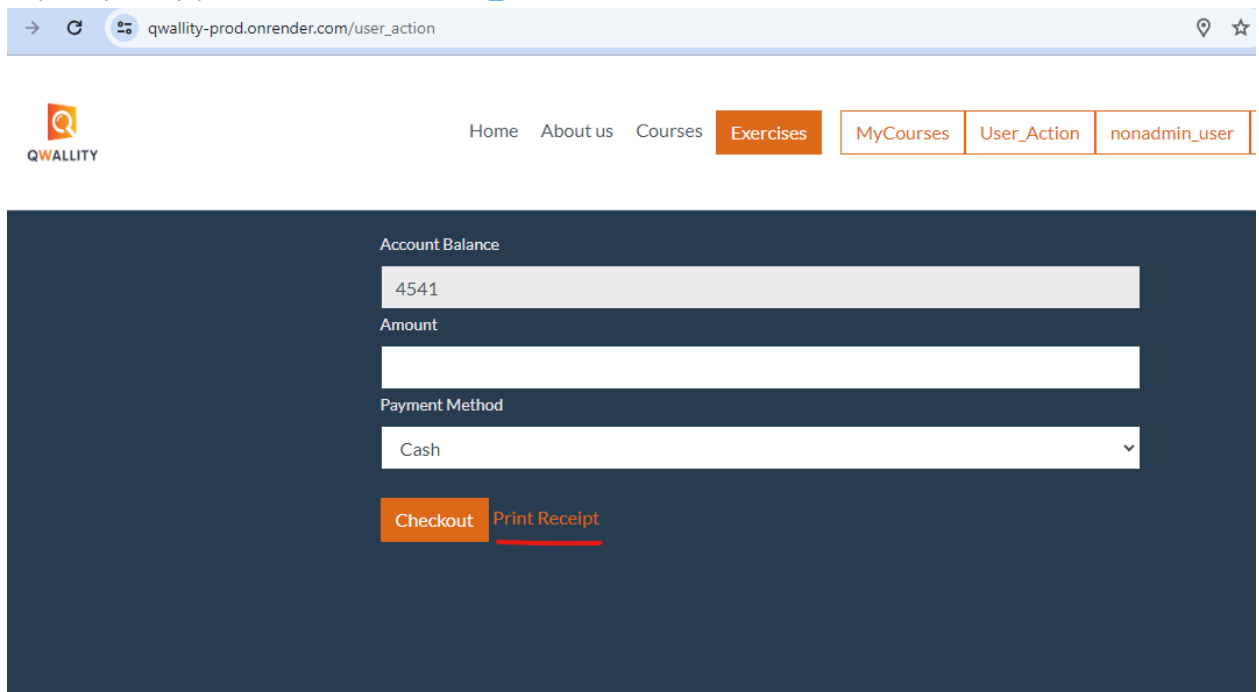

Receipt

Add the following code in the Config file
"receipt": [
 {
 "print_receipt": true
 }

]

The configuration defines whether the **Print Receipt** link will be displayed on
https://qwallity-prod.onrender.com/user_action screen or not.

Add Course Fields

Add the following code in the Config file
"add_course_fields_required": [
 {
 "title":true,
 "price": true,
 "description": true}
 ]

the configuration defines whether the fields "**title**", "**price**" and "**description**" will be required
or not on https://qwallity-prod.onrender.com/add_course screen
